

Employee Services

Innovative Solutions Empowering Employers and Employees

Online Employer's Employee Services is a self-service, web-based product providing employers and their employees' on-line access to personnel information, check stubs, time off accruals and more.

Our fully web-based solution enables employees to access information 24x7. Save time and resources by providing employees instant access to information they need, when they need it.

Online Employer Employee Services Offers:

- Seamless integration of standard data between payroll and employee services modules.
- Password protection to ensure appropriate personnel access information.
- Track career information including salary, training, and career development.
- Track employee personal information including address, emergency contact information, and life event changes.
- Ability for employers to build and maintain tiered benefits, including both employee and employer contributions.
